Still up?

Nights are better with Natrol® Advanced Sleep Melatonin.

When the lights go out tonight, will your body produce enough melatonin for you to fall asleep? Advanced Sleep Melatonin is the first and only product to deliver 10mg of Melatonin with a unique 2-Layer Technology. The Outer Layer first releases Melatonin quickly to help you fall asleep fast. The Inner Layer then releases Melatonin slowly through the night to help you stay asleep longer.

Get the sleep you need **Natrol® Advanced Sleep Melatonin!**
